Senate Coalitions

An Agent-Based Model

Max H. Feinleib

June 3, 2024

Table of contents

1 Introduction

- Describe phenomenon

- Motivate

- Fit with ABM

2 Background

- Existing work on the phenomenon

3 Model Design

- Rules of the model

- Justifications for rules

- Model parameters

- Simplifications and assumption

4 Results

- Experiments you ran (parameters, # of repetitions)

- Results from those experiments (include graphs)

- Empirical validation (if applicable)

5 Analysis and Discussion

- Interpretation of results (include graphs)

- What emergent phenomena arose? (include screenshots)

- Implications

6 Conclusion

- What would future work on this look like?

- What might you suggest for further validation?
